The official community plan sets forth the general objectives and broad policies of the District of Mackenzie and the concerned departments and agencies of the Provincial Government with regard to the use of land and the physical development of the municipality and its environs. Basic Concepts

- 4. The official community plan is based generally upon
 - (a) the objective of establishing all industrial forest processing plants utilizing the Finlay Sustained-yield Unit and the supporting residential and service facilities within one integrated community in the District of Mackenzie;
 - (b) prevention of the formation of any haphazard or satellite development in the area contiguous to the south arm of the Peace Reservoir or the Hart Highway between McLeod Lake and Pine Pass;
 - (c) the accommodation, to the standards of the District of Mackenzie, of persons and facilities whose relocation may prove necessary or desirable because of the reservoir creation or the establishment of the Finlay Sustained-yield Unit;
 - (d) the suitability of the various parts of the area for different land uses; and
 - (e) the achievement of relationships and communications between different classes of land use which will provide an efficient, convenient, and pleasant community for the optimum economic and social benefit of its inhabitants.
- 5. The plan seeks to achieve these objectives by setting out a schematic arrangement of land uses which
 - (a) maintains most of the area as a non-urban

- (b) creates an industrial area for the accommodation of forest-industry processing plants and any other basic or secondary industries well separated from residential and servicing facilities and institutions within the townsite;
- (c) creates an attractive townsite which will be compact and oriented to a strong cen-tral core area containing retail and service commercial facilities, and recreational, social, and educational facilities serving the municipality as a whole;
- (d) recognizes the need for a degree of flexihility so that the social and economic needs of the community can be met as they evolve and specific needs for housing and facilities are manifested.

The Plan

- 6. The plan shows approximate locations and land areas allocated for each class of land use.
- 7. In areas designated for Residential Use, housing accommodation of all types, including single-family, two-family, terrace housing, apartsingle-family, two-family, terrace nousing, apartments, and mobile homes, will be permitted in locations specified by the zoning by-law and as determined from time to time by Council. In addition, ancillary services and facilities, such as churches, elementary schools, playgrounds, and, where essential, local shops, may be permitted in record locations. in zoned locations.
- 8. The area designated as Central Commercial will accommodate retail shops, professional and business offices, personal services, and hotels.
- 9. The area designated as Service/Trades will accommodate extensive area uses such as private and public utility works yards, automobile storage and repair yards, lumberyards, and contractors' yards.
- 10. The area designated Institutional Centre will be used for public health, safety, administrative, recreational, social, and educational facilities which are intended to serve the municipality as a whole.
- 11. The area designated as Industrial will be used only for uses associated with industry and not for residential or commercial purposes.
- 12. The area designated as Non-urban will remain for the most part as undeveloped forest land under the jurisdiction of the Province, except where development is deemed essential and duly authorized for such uses as mineral working, water supply, land and forest protection, communications and transport facilities; municipal or Provincial facilities such as cemetery and garbage dumps; and park land and recreation areas for golf, ski-ing, boating, and camping.
- 13. Approximate locations of possible future roads intended to serve and integrate the various land-use areas into a workable munity and forest-industry complex are shown in order to ensure that their feasibility will be fully examined before any incompatible development

Implementation

- 14. Zoning and subdivision regulations of the Mackenzie shall be in conformity District of with the official community plan and shall utilized to achieve the land-use objectives of the plan by orderly, economic, staged extensions of the developed area, services systems, and community facilities.
- 15. A five-year capital works programme shall be adopted by the District of Mackenzie, and shall not be at variance with objectives of the official community plan.
- 16. Within the District of Mackenzie, development and sales programmes of lands granted by the Crown Provincial shall be initiated and scheduled to facilitate the community's growth and to achieve the land-use objectives of the plan in a manner consistent with the district's capital works programme.
- 17. The official community plan is a long-range general plan which may require revision as a result of unpredictable changes of circumstances, and where essential such revision is possible under Division (1) of Part XXI of the Municipal Act. Amendments to the zoning by-law shall only be considered quarterly except where Council deems that unusual circumstances require more immediate attention. The capital works programme shall be reviewed annually and projected an additional year.
